

PRESS RELEASE KOMMUNALKREDIT AUSTRIA AG

Kommunalkredit wins Sustainability Awards Austria's infrastructure specialist honoured internationally

“An organisation with sustainability at the heart of its business model and at the core of its activities. With ongoing projects in the areas of energy, the environment, social infrastructure, communications and transport, it shows that true sustainability can be more than just a noble goal.” This is the jury's reasoning for the international Business Vision Platform, which has drawn attention to Kommunalkredit at the suggestion of international stakeholders and has now accoladed the bank **“Most Sustainable Infrastructure Project Partner 2019 (Central Europe)”**.

Every year, Business Vision looks for candidates with outstanding entrepreneurial achievements and the vision to maintain and expand their success in the future.

In parallel, Kommunalkredit was awarded **“Best ESG Infrastructure Finance 2019”** by Capital Finance International (“CFI”). CFI accolades that Kommunalkredit takes a three-pronged approach to tackling social, environmental and economic issues, demonstrating good social commitment and thus promoting climate protection.

Kommunalkredit CEO Bernd Fislage: “These awards are market testimony that Kommunalkredit is on the right track as an infrastructure specialist. We want to offer our stakeholders – the public, communities, project developers, operators, financing partners, shareholders – advantages, take measures against climate change and further promote sustainability.”

Kommunalkredit Austria is a specialist bank for infrastructure and energy financing. It focuses on achieving sustainable benefits for smaller and larger communities.
